About this Release

This release includes the following NextLabs product: Rights Management Server 8.4.

What's New

This release introduces the following improvements and enhancements:

- **Support for Box personal repository**—Administrators can configure Box as a personal repository.
- **RMS Integration with Okta**—Administrators can integrate RMS with Okta to enable users to log in to RMS using Okta credentials.
- **Support for LDAP over SSL**—RMS can integrate with Active Directory using LDAP SSL for user authorization.
- **Newly supported CAD format**—RMS supports CATIA V4 MODEL files.

For more information, see *NextLabs Rights Management Server Administrator's Guide*.

Requirements and Product Compatibility

Supported Platforms

- Microsoft Windows Server 2008 R2 and 2012 R2

Note: Before installing RMS 8.4, make sure that you have installed the Windows Update (KB2999226) that is available at:
<https://support.microsoft.com/en-us/help/2999226/update-for-universal-c-runtime-in-windows>

- RHEL 7.3 and 7.4

Note: For RHEL 7.3 and above, before you start installing RMS, run the following command to remove the mysql-libs library shipped with the OS. This is because the library creates a conflict while installing MySQL.

```
yum remove mysql-libs
```

Note: Among all the CAD file formats, only the SAP (VDS and RH) file formats are supported on RHEL.

- CentOS 7.3

Supported Databases

RMS requires a database running on its own dedicated server to store all system data. You need at least 1 GB storage capacity to store application data. The current release supports the following databases:

- Oracle 11g, Oracle 12c, and Oracle XE for deployment environments
- MS SQL Server 2008, 2012, 2014
- MySQL 5.6 and 5.7

Supported Web Browsers

The Rights Management Server user interface is supported on the following web browsers:

- Internet Explorer (versions 10.0.9200.17457 and 11.0.9600.18282)*
- Chrome for Windows: (version 49.0.2623.110m and above)*
- Safari for Mac OS: 10.10.3
- Mobile web browsers
 - Android Chrome
 - Safari for IOS

*3D files are only supported on IE 11, Chrome, Chrome on Android, Safari on Mac OS X. However, RH files are supported on IE 10 and 11. RH files require the SAP Visual Enterprise Viewer product installed on the client(s).

Note: Web Graphics Library (WebGL) must be enabled on your web browser if you want it to render a 3D file. When viewing CAD files in RMS it is highly recommended that you use Chrome instead of Internet Explorer (for better performance).

NextLabs Products

This release is compatible with the following NextLabs products:

- NextLabs Rights Management Client 8.3.1223
- NextLabs Control Center 7.7 and 8.1
- NextLabs Policy Studio 7.7 and 8.1 (or any version compatible with NextLabs Control Center 7.7 or 8.1)

Note: If you are using the console mode of the Control Center, you must import the policy model from `[INSTALL_DIR]\Policy Model\RM_Policy_Model.bin` to the Policy Studio. For more information about extending the policy model by adding more attributes, refer to the Control Center documentation.

Installation and Upgrade Instructions

For installation and upgrade instructions, see *NextLabs Rights Management Server Administrator's Guide*.

Accessing the Rights Management Server User Interface

- 1 Enter the following URL in your web browser:
https://<IP_or_Hostname_of_your_Rights_Management_Server>:8443/RMS
- 2 Enter your username, password, and then select the domain.

- 3 Click **Log in**.
